MARKETS MOVE.

So should you.

JigsawMobile

Jigsaw**Mobile**

MARKETS MOVE.
So should you.

Introducing JigsawMobile™ – a secure trading, market data and news terminal that enables you to operate on financial markets in real-time via your mobile phone.

Access all the information you need through your mobile phone – ANYTIME and ANYWHERE.

JigsawMobile communicates with servers that monitor the financial markets 24 hours a day, seven days a week to provide accurate and timely prices, news, alerts and charts to the JigsawMobile thin client application. Trading functionality is also available. The JigsawMobile data validation system ensures that the information you receive is reliable. JigsawMobile is unique in its ability to support content from any source – with no limit on the amount of data that can be supported. Additionally, JigsawMobile may be personalised to suit individual user requirements.
